PROFILE

- Highly motivated third-year Computer Science student at National College of Ireland who balances studies along with going to the gym and work, with a solid academic foundation in computing and hands-on experience in customer service roles.
- Equipped with a strong set of skills in HTML, CSS, PHP, XML, JavaScript, Java, JSON, SQL and Git/GitHub.
- Adept at problem-solving, team collaboration, and applying technical skills in real-world environments.
- Seeking an internship position where I can leverage my technical skills, particularly in IT applications, networking, Cyber Security and software development, to contribute to a dynamic team.
- Available for full-time work until summer of 2025, with a strong commitment to continuous learning and professional development.

EDUCATION

2022-2026 |National College of Ireland | Bachelor of Science (Honours) in Computing
Modules:
Year 1: Computational Thinking, Discrete Mathematics, Problem Solving and Programming Concepts, The Computing Industry, Web Design and Development, Computer Architecture, Digital Multimedia, Introduction to Data Modelling and Databases, Introduction to Programming, Operating Systems.

Year 2: Advanced Databases, Data Communications and Networking, Object Oriented Programming, Web Application Development, Data Structures and Algorithms, Innovation and Business Entrepreneurship Software Engineering, Software Quality and Testing, Team Project.

Year 3: Advanced Computer Networks, Security Fundamentals and Development, Advanced Programming, Introduction to Artificial Intelligence and Machine Learning.

2015-2021|Donabate Community College
Leaving Certificate

PROJECTS

Online Portfolio - https://aarongoso.github.io/AaronGoslinPortfolio/
- o   My online portfolio made with HTML, CSS and JavaScript.

SneakerWRLD - https://github.com/aarongoso/SneakerWRLD
- o   A Web App Development project where I made a mock a sneaker store by using my skills in HTML, CSS, JavaScript and XML.

MealMethod - https://github.com/aarongoso/MealMethod
- o   A project that helps users plan their meals and discover different meals whether they have any dietary preferences or restrictions.
- o   Set up and used the API that helped retrieve and display the meals upon a user's request for the recipe finder.
- o   Created the fully functional user login and user database by creating the MySQL database and SQL script, and then coding some PHP along with some JavaScript.

TECHNICAL SKILLS

- **Java:** Programmed Java in Apache NetBeans for 3 years developing multiple class projects.
- **Web Development:** Created multiple functioning webpages over the last 3 years. Using HTML, CSS, XML, JSON, Bootstrap and JavaScript.
- **SQL Databases:** Learned for 2 years and completed projects using it.
- **Python:** Recently learned in my 3rd year while I will have to develop a project using it.
- **PHP:** Used a sample code that I was given and studied it to update and use it to suit my team's project called Meal Method.
- **Cisco Routers and Switches:** OSI, TCP/IP, LAN, WAN, IP addressing, Subnetting.
- **Additional skills:** Used git/GitHub to commit and deploy projects. Used Edamam API for my Meal method project. Completed an online Generative AI course by Microsoft and LinkedIn.

WORK EXPERIENCE

5/22 - Present Excel Recruitment – Part time - Event Staff
- Working in fast paced environments and in flexible positions such as bar staff, customer service, checkouts, catering and waiter for events.
- Working in various locations and have been able to adapt to the new surroundings each time in places such as the 3 Arena, Croke Park, Leopardstown Racecourse, The Curragh Racecourse, Fairy House Racecourse, St Annes Park, Royal Kilmainham Hospital and Fairview Park.
- Dealing with customers who are consuming alcohol and ensuring, based on behaviour and other factors, not to overserve anyone who is inebriated.
- Being responsible to ensure that each person I serve alcohol to is over the age of 18 and has the correct form of identification.
- Communicating effectively as a team with people of all ages and nationalities as we ensure all our tasks are carried out in the correct manner to customer's needs.

7/24 - 8/24|Color Factory, Chicago – Seasonal J1 Program - Experience Specialist
- Helped welcome visitors and gave a speech about each room as I would lead tour groups through various areas of the venue.
- Answered radio calls and offered to help with tasks when available.
- Gave out treats and foods while making sure everyone was informed about the dietary restrictions and allergens.
- When stationed in the colour shop, I welcomed guests to the colour shop and offer any help if needed regarding purchasing any items while boosting sales.
- Cleaned my final station at the end of every shift and then helped my colleagues clean their stations.

10/21 - 5/22|Dunne's Stores Pavilions – Full time - Shop Floor Staff
- Kept my designated section neat and intact and making sure all stock was fulfilled.
- Being responsible for date checks to ensure nothing was out of date, so everything was in line for the customers to purchase.
- Cleaned my section and made sure there were no hazards for customers to be at risk.
- Checked stock count and taking note of what had to be ordered for the following week.
- Took in deliveries and made sure my colleagues knew where to find the delivered stock.
- Made great friends with my colleagues in my section and other sections which resulted in us forming a strong team and lead to a great outcome of work put in.
- Worked very flexible hours (40 each week) and was always present when called upon.
- Took care of price reduction, on sale items and promotions.

11/23 - 12/23|JC's Dunne's Stores – seasonal - Shop Floor Staff
- My duties involved stocking shelves, taking in delivery's, dealing with customers and helping in other sections of the store.
